PROFESSIONAL SUMMARY

Frontend-focused full-stack engineer with 5+ years building and maintaining production web applications, primarily in the financial-services and multi-finance sector. Works day-to-day in **TypeScript** across modern frameworks — **VueJS** (primary), **ReactJS**, and **AngularJS** — backed by **Node.js** services and REST API integration. Comfortable writing clean, maintainable, typed code, mentoring junior developers, and delivering complete features independently.

CORE SKILLS

Languages: TypeScript, JavaScript (ES6+), Java, Dart, SQL, C#

Frontend: VueJS (primary), ReactJS, AngularJS — component architecture, state management (Vuex/Pinia), responsive UI, HTML5 & CSS3

Backend: Node.js, Java Spring Boot, .NET — REST API design & third-party API integration

Mobile: Flutter, React Native (cross-platform, App Store / Play Console release)

Tools & Workflow: Git & collaborative branching, Jira, code review, Adobe Photoshop / Illustrator / XD

Languages (spoken): Indonesian (Native), English (Professional Working Proficiency), Mandarin (Basic)

PROFESSIONAL EXPERIENCE

PT ADIRA DINAMIKA MULTI FINANCE

Jakarta Selatan, Jakarta

Software Developer

FEB 2022 - Present

- **Developed** the *Ad1Survey* application for mobile and web platforms, **optimizing data collection and analysis** processes to enhance efficiency in customer surveys. Tech: Flutter, Java Spring Boot, Oracle.
- Developed the ***Workflow Marketing Proposal (WMP)*** application, simplifying pricing and commission management workflows for Adira and its dealers. Tech: VueJS, TypeScript, Java Spring Boot, PostgreSQL.
- Developed the ***RIPLAY*** application for secure customer verification, integrating **Digital Signature, OTP generation via Verihub**, and multi-channel notifications — **WhatsApp/SMS via Infobip** and **email via internal ESB**. Consumed JWT-based authentication from platform middleware for session validation. Tech: ReactJS (web), React Native (mobile), Java Spring Boot, PostgreSQL
- Built and maintained the ***Order Aja Sales*** application (**10K+ downloads**), streamlining order input and tracking for the dealer network. Tech: ReactJS (web), React Native (mobile), Node.js, MySQL
- Built and maintained a ***video-call survey*** application integrating the Twilio SDK for live customer-surveyor communication. Tech: ReactJS, Flutter, Twilio, Java Spring Boot, Oracle.
- Mentored intern developers and contributed to issue resolution and code fixes across production applications, including WMP and RIPLAY.
- Provided ongoing support, maintenance, and enhancements across Adira's Loan Origination System.

PT MULTIPOLAR TECHNOLOGY

Tangerang, Banten

Application Developer

Aug 2021 - Jan 2022

- Developed an e-requisition application on the Microsoft Power Platform to streamline review and processing. Tech: PowerApps, Power Automate, SharePoint.
- Collaborated with senior staff in client meetings on project scope and delivered results to stakeholders.

PT ACCELIST LENTERA INDONESIA

Tangerang Selatan, Banten

Full Stack Developer

Mar 2020 - Jul 2021

- Developed *Confins* software solutions for the financial-services and multi-finance sectors. Tech: .NET, AngularJS.
- Improved and maintained the *iTalent* e-learning app, reaching **10K+ downloads** across Google Play and the Apple App Store. Tech: Flutter, .NET.
